

MARJAN ABEDINI

(315) 886-0980 | abedini.marjan.60@gmail.com | LinkedIn | GitHub

Authorized to work in the U.S.

PROFESSIONAL SUMMARY

Applied Data Science professional with experience in **Data Analysis, Machine Learning, Data Visualization, and Business Intelligence**. Experienced working with **SQL, Python, Power BI, Snowflake, Tableau**, and statistical tools through healthcare and data science projects. Skilled in transforming complex datasets into actionable insights and supporting data-driven decision-making.

EXPERIENCE

Clinical Data Analyst (Research Collaborations)

Clinical Research Projects with Physicians at SUNY Upstate Medical University, Syracuse, NY Jan 2023 - Present

- Analyzed clinical research datasets using Excel, SPSS, and statistical methods, supporting evidence-based healthcare research across 5+ research projects.
- Collaborated with physicians and multidisciplinary research teams to clean, validate, and interpret complex clinical datasets, improving data quality and consistency across research studies.
- Developed analytical reports, data visualizations, and statistical summaries using Excel and SPSS to communicate research findings effectively across multidisciplinary teams.
- Contributed statistical analysis and data interpretation across 5+ research projects using regression and descriptive statistics, resulting in 2 peer-reviewed publications.

Independent Data Analyst

Clinical & Healthcare Research Projects Jan 2018 – Dec 2022

- Performed data analysis and statistical reporting for healthcare and clinical research projects using Excel and SPSS, supporting research findings and evidence-based conclusions.
- Supported researchers and healthcare professionals through data validation, cleaning, and quality review processes, improving dataset accuracy and reliability.
- Prepared analytical reports, statistical summaries, and research documentation by translating quantitative findings into actionable insights for academic and clinical studies.
- Applied statistical techniques, including descriptive statistics and hypothesis testing, to analyze healthcare datasets and communicate findings to research teams and project stakeholders.

SELECTED PROJECTS

MarFlix Intelligence: Snowflake, dbt, SQL, Power BI, View Project	Jun 2025 – Aug 2025
U.S. Storm Analysis Dashboard: Power BI, Data Visualization, View Project	Mar 2025 – May 2025
Detecting Fraud in Hawaii Airbnb Listings: Python, DBSCAN, K-Means, View Project	Oct 2024 – Dec 2024
Analyzing NYC Citi Bike Trips: Python, Pandas, Folium, Matplotlib, View Project	Oct 2024 – Dec 2024
Energy Consumption Analysis: R, Regression Analysis, View Project	Mar 2024 – May 2024

EDUCATION

Syracuse University , Syracuse, NY	Aug 2025
M.S. in Applied Data Science	
University of Isfahan	May 2006
B.S. in Statistics	

CERTIFICATIONS

• Microsoft Office Specialist: Excel Associate (Office 2019) – Microsoft	Apr 2025
• IBM Data Science Professional Certificate – IBM	Mar 2024
• Applied Data Science Capstone – Coursera	Mar 2024
• Machine Learning with Python – IBM	Jan 2024

SKILLS

Programming & Analytics: Python, SQL, R, Data Analysis, Statistical Analysis

Visualization & Reporting: Power BI, Tableau, Dashboard Development, Data Visualization

Data Engineering: Snowflake, dbt, Data Warehousing, Relational Databases

Statistical Tools: SPSS, Microsoft Excel

Professional Skills: Problem Solving, Analytical Thinking, Stakeholder Communication, Data Storytelling, Cross-Functional Collaboration, Attention to Detail
